

MINITOUCH DIGITAL TYRE INFLATOR

Introducing the Digital Touchscreen Tyre Inflator MiniTouch, an advanced upgrade from traditional mechanical push button models. This state-of-the-art device boasts an intuitive 7" high resolution Touchscreen interface for seamless operation, delivering accurate pressure readings and customizable inflation settings for superior convenience and precision.

FEATURES & BENEFITS

ENHANCED USER EXPERIENCE

(Modern, Intuitive and User-Friendly)

FULLY AUTOMATIC

Touch operation

NUMERIC KEYPAD

Easy and fast to set the pressure

VISIBILITY

7" Big display as compared to 1" in regular DTI

White – Idle Mode, Yellow –Filling Mode, Green – Filling Complete

INDUSTRIAL QUALITY
TOUCHSCREEN
for Longer Life

MiniTouch – Raspberry Pi Make Display

Raspberry Pi make TOUCH DISPLAY

Wide Viewing angle of 140 degree

Wide range Operating temperature

High Resolution of 800×480 Pixels

SPECIFICATIONS

CATEGORY	PARTICULAR	SPECIFICATIONS
DISPLAY	Display Make	Raspberry Pi
	Display Resolution	• 800 X 480 Pixels
	Display Grade	Industrial
	• Touch Panel	True multi-touch capacitive touch panel
	Display size	• 7 inches
	Active area	• 154 mm X 85 mm
	• LCD Type	TFT, normally white, transmissive
	Surface Treatment	Antiglare
MOTHERBOARD	• Processor	Rockchip Quad-Core RK3288-CG.W processor
	• CPU	• 4 x Arm [®] Cortex [®] A17 @ 1.8 GHz
	• GPU	• Arm® Mali™ T760 MP4 GPU @ 600 MHz
	• RAM	• 2GB
	• ROM	• 16GB
	 Operating Systems 	• Linux Debian 10
TYRE INFLATOR	Inflation range	• 0-120 PSI, 0-150 PSI, 0-180 PSI, 0-200 PSI
	Supported Vehicles	 Scooters, Bikes, Cars, SUVs, Tempo, LCV, BUS, HCV, Heavy Truck Vehicles and all similar range vehicles
	• Filling	Automatic. Immediately after Nozzle is inserted
	Inflation Accuracy	• .+/- 1 % of FS
	Resoluton	• 1 PSI
	Pressure Sensor	Sputtered thin film/Cemaic Type
	Solenoid valve	High Orifice for Fast filling, NBR stopper for leakproof
	• SMPS	Wide range Voltage support 110V to 270 V AC
	Hose Pipe	Dual Nylon Braided Hose
